

Overview

For dispersed teams or employees unable to travel, Symantec™ Virtual Academy is a comprehensive training option that maximizes the value of your security software and ensures best practices in your IT organization. Combining multiple live training tools with self-paced training to recreate the classroom experience, Virtual Academy is the right training solution—wherever your teams are located.

Virtual Academy Highlights

Virtual Academy classes are a unique combination of interactive, live components and self-paced learning technologies. You achieve the same level of deep knowledge transfer available in the classroom via:

- **Interactive Live Webcasts:** During scheduled Webcasts, communicate directly with your Symantec instructor, attend Q&A sessions, and experience live navigation of Symantec software.
- **Practical Hands-on Labs:** You'll remotely access live Symantec systems, and benefit from thorough, real-world experience as you practice what you've learned in an authentic, hand-on setting.
- **Expert Mentoring Support:** Access your instructor's expertise with private one-on-one sessions.
- **Convenient On-Demand Modules as applicable:** Plan self-study time around your schedule. Web-based modules are available in a variety of multimedia formats—24 hours a day 7 days a week.

Practical Benefits

- **Save Time with the Convenience of eLearning—**Save valuable time by training IT members across multiple sites at their own workstations.
- **Save on Travel Costs—**Expertly train every member of your IT team, without travel costs.
- **Stay Current and Confident—**Access a pool of Symantec experts with deep, real-world product knowledge.
- **Maximize Efficiency—**Get your team up-to-speed quickly with training designed by experienced Symantec engineering, product development and technical support experts.

- Gain Peace of Mind—Know your teams are prepared to handle any situation effectively and to respond efficiently to real-world situations.
