

Dear:

Symantec Acquires 4FrontSecurity

4FrontSecurity has marked an exciting new chapter in its history. We officially became a part of the Symantec family through an acquisition that closed on February 23, 2007. I want to thank you in advance for your continued support and to let you know why I believe this acquisition represents a tremendous opportunity for your organization as you look to fulfill your IT security, risk, and compliance requirements.

This move will enable us to:

- Offer a more comprehensive solution by incorporating 4FrontSecurity technology into the broader set of infrastructure protection solutions currently offered by Symantec.
- Have the financial resources to effectively compete in the market and to deliver a more comprehensive IT security, risk, and compliance assessment solution.

We expect the combination of 4FrontSecurity and Symantec to greatly help enhance our respective customers' control of the information affecting risk management, regulatory compliance, and security in their businesses. Assessment Manager and the assessment module library, in particular, will enhance the Symantec Control Compliance Suite, which currently helps enterprises implement, measure, and maintain compliance with security configuration standards.

Smooth Transition

Symantec is committed to a smooth transition as we progress through the integration. In the future, you will hear more about Symantec's plans for an integrated road map. In the meantime, you can rest assured that Symantec will continue to support you in the same high-quality manner that you are accustomed to and will respect and protect your current investment. Sales and technical support processes will remain unchanged until further notice. Symantec will update you as new information becomes available.

Our Ongoing Commitment

Symantec and 4FrontSecurity both recognize that the strength of all organizations is built on the loyalty of its customers. I want to thank you for your continued business and extend to you Symantec's full commitment to meeting your ongoing IT security, risk, and compliance requirements. I look forward to serving you even better as part of the Symantec family.

I will be in touch soon to arrange a date to meet with you to discuss future plans and answer any questions you might have.

Sincerely,

Chris Parker
Senior Manager, Symantec Corporation
(former CEO, 4FrontSecurity)
